

GLOVE SIZING CHART

METHOD 1

- Print this sizing gauge at 100% scale (printer setting must be set to "100% scale" to be accurate).
- Place the side of your index finger next to the red line as shown in the diagram to the right. The number closest to your hand will be the recommended glove size for you.

METHOD 2

Using a measuring tape, measure the circumference of your hand just below the knuckles. Refer to the chart to determine your size.
