Cordova Reptyle® gloves combine new environmentally friendly fiber and coating technologies. Our initial range of Reptyle® hand protection provides ANSI/ISEA 105 Cut Level 2 Protection and is available in 13, 15 & 18-Gauge shells that offer varying levels of durability and tactile sensitivity. Flat Nitrile Thumb reinforcements and Touchscreen Capability extend the lifespan of Reptyle® gloves and keep gloves on when using touchscreen devices. All Reptyle® models are vend packed.

## Eco-PE™

Revolutionary Polymer Fiber with Nano-Particles made using an Eco-Friendly Process that eliminates solvents and extractants used in production of tradition HPPE fiber.

## Liquid Foam Nitrile

Single Layer Porous Nitrile that offers 20% more abrasion resistance than Microfoam Nitrile. Coating process uses 30% less water and has half the carbon emissions of Microfoam Nitrile Production.

**6620:** Reptyle®, 13-Gauge Eco-Cut Shell, Liquid Foam Nitrile Palm Coating, Reinforced Thumb Crotch, Vend Packed, ANSI/ISEA 105 Cut Level A2

**6625:** Reptyle®, 15-Gauge Eco-Cut Shell, Liquid Foam Nitrile Palm Coating, Reinforced Thumb Crotch, Vend Packed, ANSI/ISEA 105 Cut Level A2

**6630:** Reptyle®, 18-Gauge Eco-Cut Shell, Liquid Foam Nitrile Palm Coating, Reinforced Thumb Crotch, Vend Packed, ANSI/ISEA 105 Cut Level A2
